COAL SEAM GAS EXPLORATION & PRODUCTION SERVICES HAS SIGNED MOU WITH PROJECT GERMAN MINING (PGM) GmbH

Coal Seam Gas Exploration & Production Services has signed MOU with Project German Mining GmbH to provide turnkey gas development solutions for Coal Mine Methane, Landfill gas and Biogas in Asia Pacific area (Australia, New Zealand, Indonesia, Vietnam, Laos, Cambodia, Thailand, Malaysia and India).

CSGEPS is able to provide technical expertise from exploration and assessment stage to development with PGM's high level, proved technical capability for gas production and generation of electricity from gas.

PGM was established 1999, with support of the NRW-goverment, to open German mining equipment producers new markets, Russia, Ukraine etc.. Since 2005 PGM has been focussing on mine safety, mine gas control and utilisation. Main expertise services are:

- Planning of degassing systems with gas output calculation
- Planning of degassing tube networks and optimized degassing equipment
- Layout and delivery of equipment needed for degassing of mines, drilling equipment, bore hole sealings up to degassing pumps and utilisation equipment
- Consulting: mining corporations, investment banks e.g. carbon credits
